

Are you traveling to Italy by yourself or in a small group?

If you are planning to travel to Italy by yourself or with a few friends or family members, allow us to help you plan your itinerary.

We will help you:

- Create an itinerary that you want and is feasible and viable
- Recommend the best hotels or convents to stay in – many of these are the ones we work with
- Recommend places to go and things to do along your route that you might not be aware of
- Recommend the best guides (some of which are free)
- Recommend good restaurants
- Find the best airfare rates and schedules
- Arrange ground transportation to include trains, hired drivers, buses, and rental cars (helping you find the best rates)
- Find the best ways to exchange currency

Additionally, we will be available to answer the many questions you'll have.

For a modest fee, we will pass along to you not only our experiences of traveling in Italy, but also our network of hotels, drivers, guides, and itineraries. Take advantage also of our negotiated rates.

Also, in case you're interested, ask us about staying with local families in Assisi who will host you as a guest in their home. Discover how they live, what real life is like. Wander around, get lost, enjoy yourself.
